TRANSITION MALVERN HILLS
THE TIME FOR ACTION IS NOW

Healthy Gardens and Growing Food

22nd March 5.30pm at the Guesten Room, Lyttelton Rooms, Church Street, Great Malvern, WR14 2AY

An evening dedicated to learning more about nurturing our gardens for the forthcoming year. Our speaker, Nyrees, has an abundance of knowledge to help you produce a flourishing vegetable garden in 2022, and for future years, with ideas on permaculture and composting. We will end the evening with Q&A's. All are welcome, no set charge for the evening but donations will be greatly appreciated.

Permaculture integrates land, resources, people and the environment through mutually beneficial synergies – imitating the no waste, closed loop systems seen in diverse natural systems.

Nyrees's background

Nyrees has been practising permaculture for 25 years and established a community permaculture group in Birmingham in 2015. Her work includes designing, implementing and maintaining greenspaces. She works with both children and adults in environmental education and therapeutic horticulture. She also runs workshops and puts on events such as skill share gatherings and has a particular passion in promoting the use and function of stinging Nettles!
